

WEEK 4 OF 4 · Body

Script 4: The Iron Root (Stability)**Theme: Connection to the Ground**

Rationale: Martial arts power comes from the ground up. This visualization helps students lower their center of gravity and feel immovable.

Request that students stand in a horse stance or a natural standing stance. Remind them of the "out."

"Power does not come from the shoulders; it comes from the ground. Stand strong. Close your eyes.

I want you to imagine that you are a great, ancient tree. Imagine roots growing out of the soles of your feet, breaking through the mats, going deep into the cool earth below.

Shift your weight slightly. Feel those roots holding you down. Imagine that no matter how hard the wind blows — or how hard an opponent pushes — you cannot be uprooted.

Drop your weight lower into your hips. Feel the connection between your feet and the floor. You are not just standing on the mat; you are part of it.

Take three breaths, breathing energy up from your roots into your core."
